BPC 110 Freshman Experience   Fall 2016   Dr. Hahn

30% of points was for attendance.   30% for quizzes and 30% for assignements leaving 10% for the Final Assignment.
Attendance was originally monitored by daily turn in with 100% pts or turn in (lot of opinion answer) but because of the
amount of unexcused non attendance rather than assiging 50% D or F to the class, I just gave 100% to everyone for "attendance points".
Because the Final Assignment was originally assigned at 20%, I gave the higher grade of 10% final assignment OR 20%
Final Assignement.   If I counted 20% for "Final Assignment", then the rest of the points were 25% quizzes, 25% assignements.   I did give the class the option of
completing assignments missed by turning in assignments by 11/30 with almost no penalty ("forgiveness days").   So
I could have either had 50% D and F or I could have the average shown. Because of the sheer amount of non attendance & non participation, it was
hard to gauge whether I would finally end up with a lot of D and F grades or the grades which I ended up with at the end of the semester.
I am not sure if this is a common problem for others or if my students somehow felt that no participation and no attendance would result in a good grade.
